Going Green

Each issue of the newsletter that we publish costs the Friends approximately \$500 to print and mail to our members.

We are exploring the possibility of sending the newsletter electronically, which could save the Friends over \$2,000 a year. Along with saving thousands of dollars a year, we would also be saving paper and the trees that paper comes from. Transmitting the newsletter instead of mailing it would also mean that the newsletter would always be sent to you in full color.

We propose that as you renew your membership, you check the box on the membership form that enables the Friends to send you the newsletter via e-mail. We ask that you give this move to electronic newsletter serious thought when renewing your membership this year.

We will, of course, continue to provide paper copies to those members who prefer to receive the newsletter in that format.
